

Course Schedule 1.5.0

Date	Mar 05, 2018

Summary

This release fixes some display issues with the **Course Schedule**.

Important highlights from this release

1. Fixed a bug where the **Start Time** and **End Time** drop downs did not display properly on smaller screen sizes.
2. Removed the **Help** dropdown (including **Documentation** and **Take a tour**) and replaced it with simply a link to the KB help documentation. This was changed after the decision to put the **Take a tour** button in the footer of each page instead of in the **Help** dropdown.
3. Removed the "table-condensed" class from the results table for a more natural spacing between table rows.
