

# Self Service v1.0.5

Date	Jul 21, 2017
Issues	16 issues

## Summary

This update is the first after our push to production with the new Self Service interface. It includes updates and fixes to the Employee Setup Request, as well as some feature improvements for the EBB Feed Builder. Also, some minor updates to the Self Service system as a whole including a link to these change logs.

## All updates for this release
